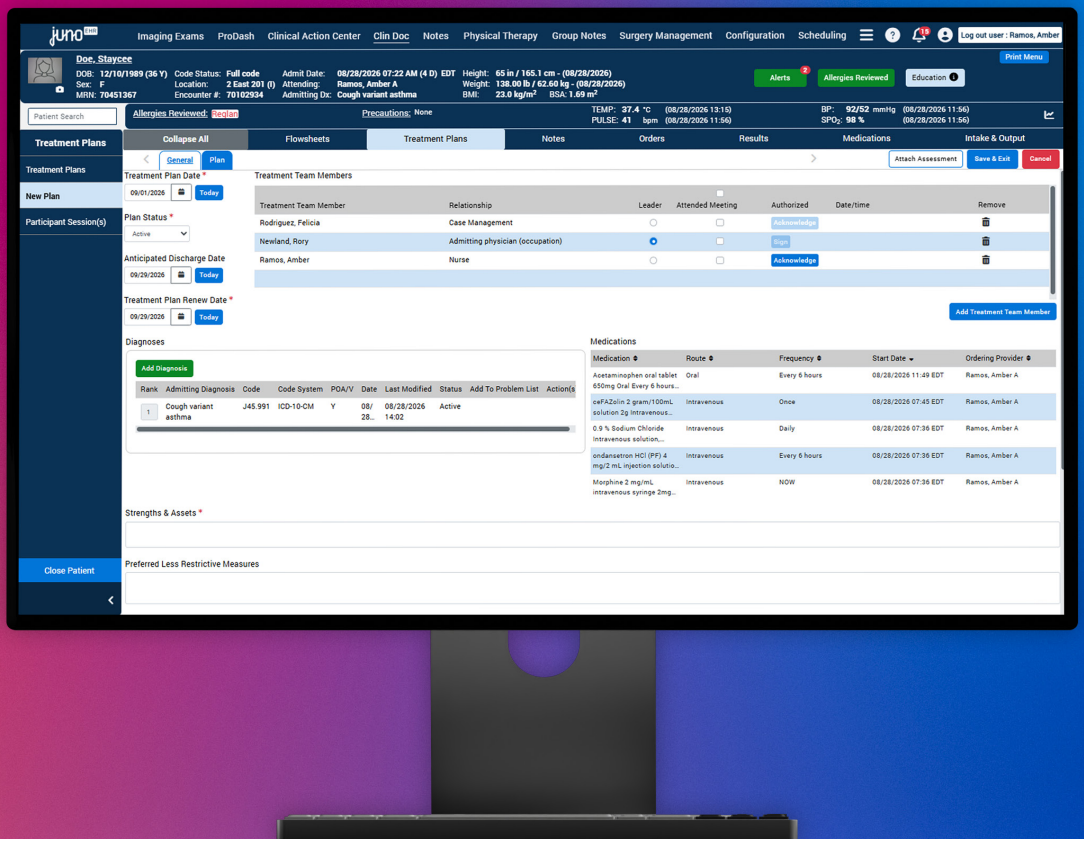
WE PUT CLINICIANS FIRST SO YOUR PATIENTS NEVER COME SECOND



Juno Health® provides a purpose-built EHR for behavioral health professionals, automating time-consuming workflows and eliminating documentation burdens so they can stay present and focused during every session. It provides actionable insights that facilitate decision-making, maximizes reimbursement, and simplifies compliance — all within a modern, cloud-native system.

Juno EHR for Behavioral Health is intuitively designed with customizable documentation and workflows, ensuring all vital points of data are captured without redundancies. It includes more than 150 assessments, extensive Treatment Plan options, and helpful features like Group Notes, Session Manager, and robust scheduling. Additionally, our single dashboard design allows clinicians to review information without clicking from screen to screen, saving time, and reducing frustrations.

REAL REACTIONS. REAL PERSPECTIVES.
See what clinicians and staff who experienced Juno EHR firsthand have to say.

THE JUNO EHR FOR BEHAVIORAL HEALTH DIFFERENCE

These powerful, intuitive features are designed to make it easier and more efficient for you to provide excellent care and achieve better patient outcomes.

NEXT LEVEL TREATMENT PLANS

Pre-configured behavioral health templates with suggested goals, objectives, and interventions. Auto-populates diagnoses and medications, enabling team collaboration. Details transfer to provider notes, Session Manager, and Group Notes for progress tracking.

COMPREHENSIVE DOCUMENTATION

Over 400 pre-built templates for behavioral health, substance use, and infection control, plus unlimited custom options via Juno EHR's Clinical Content Builder. Group Notes enables multi-patient documentation, while Session Manager optimizes scheduling for behavioral health workflows.

MEDICATION MANAGEMENT AND ADMINISTRATION

A closed-loop medication workflow connects orders to dispensing and administration. Features include BCMA integration, dual monitor support, real-time alerts, color-coded schedules, and safety checks, reducing duplicate entry and enhancing patient safety.

INCIDENT MANAGEMENT

Simplifies creation and documentation of patient safety incidents for all staff. A single screen displays all entries, while the Management Status Board tracks incidents from submission to closing, improving compliance, communication, and process enhancements.

WE UNDERSTAND THE NEEDS OF BEHAVIORAL HEALTH

INTEROPERABILITY

- ★ Supports HL7 FHIR, USCDI, DICOM and CCD/CCR
- ★ Bi-directional integration with outside data sources
- ★ Future-ready API infrastructure

COMPLIANCE

- ★ Codified/standardized data for reporting

DRUMMOND CERTIFIED ONC HEALTH IT

Healthcare IT is broken. We're fixing it. Juno Health was born because outdated EHRs were detracting from patient care instead of facilitating it. We created Juno EHR to be modern, affordable, and tailored to your needs—building an intuitive system clinicians would actually want to use. Juno Health® and Juno EHR® are registered trademarks of Document Storage Systems, Inc.
