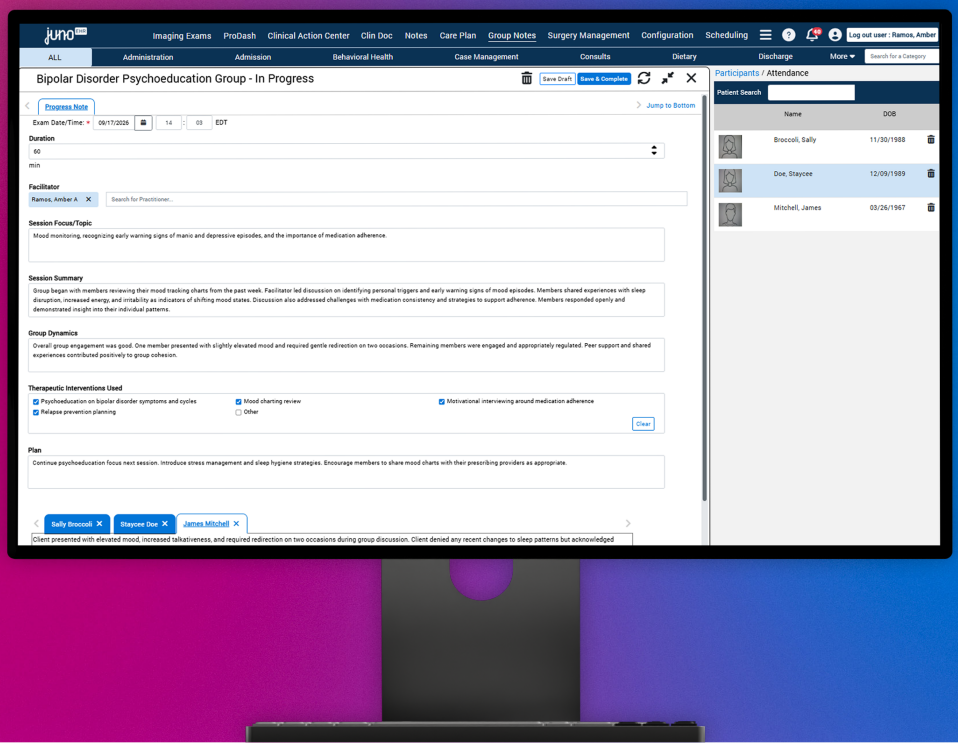
STATE MENTAL HEALTH

BETTER OUTCOMES BEGIN WITH BETTER THINKING



Juno Health® build an EHR purpose-built for behavioral health professionals, automating time-consuming workflows and eliminating documentation burdens so they can stay present and focused during every session. It provides actionable insights that facilitate decision-making, maximizes reimbursement, and simplifies compliance — all within a modern, cloud-native system.

Juno EHR for Behavioral Health is intuitively designed with customizable documentation and workflows, ensuring all vital points of data are captured without redundancies. It includes more than 150 assessments and templates, extensive Treatment Plan options, and helpful features like Group Notes, Session Manager, and robust scheduling. Additionally, our single dashboard design allows clinicians to review information without clicking from screen to screen, saving time, and reducing frustrations.

Juno Health's EHR solutions were developed through decades of experience in some of the most complex and heavily regulated care systems in the world. We have worked side-by-side with government agencies for more than thirty years, giving us the understanding needed to overcome your unique challenges.

REAL REACTIONS. REAL PERSPECTIVES.
See what clinicians and staff who experienced Juno EHR firsthand have to say.

THE JUNO EHR FOR BEHAVIORAL HEALTH DIFFERENCE

These powerful, intuitive features are designed to make it easier and more efficient for you to provide excellent care and achieve better patient outcomes.

NEXT LEVEL TREATMENT PLANS

Pre-configured behavioral health documentation includes suggested goals, objectives, and interventions. Auto-populates diagnoses and medications, enabling team collaboration and seamless transfer to provider notes, Session Manager, and Group Notes.

COMPREHENSIVE DOCUMENTATION

Juno EHR provides 400+ pre-built templates for behavioral health, substance use, and more. Group Notes enables multi-patient documentation, while Session Manager supports intervention scheduling with conflict checks.

MEDICATION MANAGEMENT AND ADMINISTRATION

Juno EHR's pharmacy module and eMAR create a closed-loop medication workflow connecting orders to dispensing and administration. Features include BCMA integration, real-time alerts, color-coded schedules, and safety checks to enhance patient safety.

INCIDENT MANAGEMENT

Incident Management simplifies documentation of patient safety incidents for all staff. A Management Status Board tracks open incidents from submission to closing, improving compliance, team communication, and data-driven process enhancements.

BUILT TO HELP YOU OVERCOME YOUR CHALLENGES

STAFF RETENTION

- ★ Minimizes time spent on administrative tasks
- ★ Customizable note templates reduce documentation burden
- ★ Intuitive design lowers the learning curve

OUTDATED TECHNOLOGY

- ★ Cloud-native

DRUMMOND CERTIFIED ONC HEALTH IT

Healthcare IT is broken. We're fixing it. Juno Health was born because outdated EHRs were detracting from patient care instead of facilitating it. We created Juno EHR to be modern, affordable, and tailored to your needs—building an intuitive system clinicians would actually want to use.
